PLANT AND SOIL

RIODICAL
813
55

International Journal of Plant Nutrition, Plant Chemistry, Soil Microbiology and Soil-borne Plant Diseases.

Revue internationale de nutrition des plantes, de chimie végétale, de microbiologie du sol et des maladies des plantes en rapport avec le sol.

Internationale Zeitschrift für Pflanzenernährung, Pflanzenchemie, Bodenmikrobiologie und bodenbedingte Pflanzenkrankheiten.

Issued under the auspices of the

"Koninklijk Genootschap voor Landbouwwetenschap"

(*Royal Netherlands Society of Agricultural Science*)

Executive Editors: D. I. Arnon, Berkeley; J. Baeyens, Louvain; G. W. Harmsen, Haren; E. G. Mulder, Wageningen; A. C. Schuffelen, Wageningen; F. Steenbjerg, Copenhagen.

Secretary:
G. H. Arnold

Assistant Secretary:
J. K. Smit

c/o Institute for Soil Fertility
Haren (Gr.), Netherlands

Consulting Editors; Wm. A. Albrecht, Columbia, Mo.; C. Arnaudi, Milan; L. Gisiger, Liebefeld-Berne; A. J. de Groot, Haren; W. R. C. Handley, Oxford; J. L. Harley, Sheffield; J. den Holder, Ghent; J. Lavollay, Paris; L. Leyton, Oxford; W. J. Lütjeharms, Bloemfontein; H. Lundegårdh, Uppsala; E. Melin, Uppsala; M. Ødelien, Ås; E. J. Petersen, Copenhagen; C. S. Piper, Adelaide; D. Snow, Reading; H. G. Thornton, Harpenden, Herts.; S. Tovborg Jensen, Copenhagen; A. I. Virtanen, Helsinki; S. A. Waksman, New Brunswick; F. W. Went, St. Louis; L. K. Wiersum, Haren.

The Editors are - if necessary - advised by experts from the Staff of the Institute for Soil Fertility, Haren

CONTENTS — TABLE DES MATIÈRES — INHALT

PAGE

A. A. Abd El-Rahman and M. O. El-Monayeri, Growth and water requirements of some range plants under controlled conditions 119

Z. Aleksic, H. Broeshart and V. Middelboe, *Short communication*. Shallow depth placement of $(NH_4)_2SO_4$ in submerged rice soils as related to gaseous losses of fertilizer nitrogen and fertilizer efficiency 338

Z. Aleksic, H. Broeshart and V. Middelboe, *Short communication*. The effect of nitrogen fertilization on the release of soil nitrogen 474

J. D. Allen and J. M. Young, *Short communication*. Soil fungistasis and *Sclerotium cepivorum* Berk. 479

Jean-René Billy et Henri Margulis, Étude de quelques acides humiques sur gel de dextrane 343

D. I. Bevege, Inhibition of seedling hoop pine (*Araucaria cunninghamii* Ait.) on forest soils by phytotoxic substances from the root zones of Pinus, Araucaria and Flindersia . . 263

D. J. Cotter and U. N. Mishra. The role of organic matter in soil manganese equilibrium 439

B. K. Dey, A. N. Sen and W. V. B. Sundara Rao, Effect of inoculation on the exudation of amino acids and sugars by berseem (*Trifolium alexandrinum*) and lucerne (*Medicago sativa*) 213

A. van Diest, Biological immobilization of fertilizer phosphorus. I. Accumulation of soil organic phosphorus in coastal plain soils of New Jersey 241

A. van Diest, Biological immobilization of fertilizer phosphorus. II. Evaluation of factors involved in phosphorus transformation 248

W. Dijkshoorn, D. J. Lathwell and C. T. de Wit, Temporal changes in carboxylate content of ryegrass with stepwise change in nutrtion 369

W. Eppendorfer, The effect of nitrogen and sulphur on changes in nitrogen fractions of barley plants at various early stages of growth and on yield and amino acid composition of grain 424

K. A. Handreck and L. H. P. Jones, Studies of silica in the oat plant. IV. Silica content of plant parts in relation to stage of growth, supply of silica and transpiration 449

S. G. Heintze, Manganese–phosphate reactions in aqueous systems and the effect of applications of monocalcium phosphate, on the availability of manganese to oats in an alkaline fen soil 407

J. J. M. Hooymans, Further evidence for a direct cytoplasmatic pathway for Rb transport from the external solution to the xylem in barley seedlings 92

R. C. Jee and S. K. De, *Short communication.* Effect of ammonium salts on the intake of phosphate by Indian clay minerals 335

F. R. Khan and A. H. Cornfield, *Short communication.* The direct determination of iron in soil extracts by atomic absorption spectrophotometry 189

D. H. Khan and B. C. Mandal, *Short communication.* Effect of urea on the germination and yield of jute (*Corchorus capsularis*) 471

C. K. Labanauskas, L. H. Stolzy, G. A. Zentmyer and T. E. Szuszkiewicz, Influence of soil oxygen and soil water on the accumulation of nutrients in avocado seedlings (*Persea americana* Mill.) 391

G. L. Lyon, R. R. Brooks, P. J. Peterson and G. W. Butler, Trace elements in a New Zealand serpentine flora . . . 225

K. G. Mukerji and V. Ranga Rao, *Short communication.* Gentamicin as an antibiotic in dilution plates for the isolation of soil fungi 331

D. N. MUNNS, Nodulation of *Medicago sativa* in solution culture. III. Effects of nitrate on root hairs and infection . 33

D. N. MUNNS, Nodulation of *Medicago sativa* in solution culture. IV. Effects of indole-3-acetate in relation to acidity and nitrate 257

M. M. MUSA, Nitrogenous fertilizer transformations in the Sudan Gezira soil. II. Nitrification of urea and ammonium sulphate 1

P. E. ONUORAH, The influence of sucrose and wheat root exudates on the germination and growth of conidia of *Fusarium culmorum* (W.G.S.M.) Sacc. 27

G. PÁLFI and L. DÉSZI, Pipecolic acid as an indicator of abnormal protein metabolism in diseased plants 285

J. F. PARR and F. E. KHASAWNEH, Drying patterns in soil following anhydrous ammonia injection 460

RAJENDRA PRASAD, *Short communication.* Dry-matter production and recovery of fertilizer nitrogen by rice as affected by nitrification retarders 'N-Serve' and 'AM' 327

E. PRIMOST und G. RITTMEYER, Der Einfluss verschiedener Wachstumsfaktoren auf die Halmverkürzende Wirkung von Chlorcholinchlorid (CCC) bei Winterweizen im Feldversuch 66

T. K. RAMACHANDRA REDDY, Plant treatment in relation to the rhizosphere effect. II. Foliar applications of certain chemicals and antibiotics in relation to the rhizosphere microflora of rice (*Oryza sativa L.*) 102

T. K. RAMACHANDRA REDDY, Plant treatment in relation to the rhizosphere effect. III. Foliar applications of certain trace elements and metallic chelates in relation to the rhizosphere microflora of rice (*Oryza sativa* L.). 114

MOHAMMED RAMZAN, Indices of availability of soil calcium to plants 18

GERHARD RAPPE, Regular yearly variations in effect of irrigation in southern dry regions 362

W. H. RICKARD and R. F. KEOUGH, Soil-plant relationships of two steppe desert shrubs 205

D. A. VAN SCHREVEN, The production of mineral nitrogen by soil samples, contained in polyethylene bags, under field conditions and in the laboratory 170

G. S. SEKHON and C. A. BLACK, Uptake of phosphorus by plants in relation to carbon dioxide production and organic phosphorus mineralization in soils 299

H. N. SHAHI, *Short communication.* Soil moisture determination by saturation capacity approach 333

A. N. SMITH, The uptake of phosphorus by wheat and clover from four inorganic soil phosphate fractions after the addition of contrasting types of phosphate fertilizer 144

OJCUMILA STEFANIAK, Occurrence and some properties of aerobic psychrophilic soil bacteria 193

SHANKER BHAT SULLIA, Effect of foliar spray of hormones on the rhizosphere mycoflora of leguminous weeds 292

A. SZALAY and M. SZILÁGYI, Laboratory experiments on the retention of micronutrients by peat humic acids 219

G. L. TERMAN and M. A. BROWN, Crop recovery of applied fertilizer nitrogen 48

MERVYN W. THENABADU, Magnesium-sodium interactions effecting the uptake and distribution of potassium and calcium by cotton 132

B. K. G. THENG, J. R. H. WAKE and A. M. POSNER, The fractional precipitation of soil humic acid by ammonium sulphate 305

A. ULRICH and L. O. HYLTON, JR., Sulfur nutrition of Italian ryegrass measured by growth and mineral content 274

V. N. VASANTHARAJAN and J. V. BHAT, Interrelations of micro-organisms and mulberry III. The beneficial influence of certain heterotrophs on the nitrifiers in rhizosphere . . . 156

ARTHUR WALLACE, *Short communication.* Retranslocation of Rb^{86}, Cs^{137} and K to new leaf growth in bush beans 184

R. WETSELAAR, Soil organic nitrogen mineralization as affected by low soil water potentials 9

R. J. B. WILLIAMS and H. H. LE RICHE, The effect of traces of beryllium on the growth of kale, grass and mustard 317
